

Titles in the NCETE Library
Last Update September 21, 2009

- American Society for Engineering Education. (2007) *Proceedings, First International Conference on Research in Engineering Education*. Honolulu, HI.
- American Psychological Association. (2001). *Publication manual of the American Psychological Association*. (5th ed.). Washington DC: Author.
- Billington, D. P. (1983). *The tower and the bridge: The new art of structural engineering*. Princeton, NJ: Princeton University Press.
- Billington, D. P. (1996). *The innovators: The engineering pioneers who made America modern*. New York: Wiley.
- Benenson, G., & Neujahr, J. L. (2002). *Mechanisms & other systems*. Portsmouth, NH: Heinemann.
- Blackburn, T. R. (2003). *Getting science grants: Effective strategies for funding success*. San Francisco: Jossey-Bass.
- Bransford, J. D., Brown, A. L., & Cocking, R. R. (Eds.). (1999). *How people learn: Brain, mind, experience, and school*. Washington, DC: National Academies Press.
- Bucciarelli, L. L. (1994). *Designing engineers*. Cambridge, MA: MIT Press.
- Chapin, P. G. (2004). *Research projects and research proposals: A guide for scientists seeking funding*. Cambridge, UK: Cambridge University Press.
- Chang, R. P.H. 1998 *Materials World Modules* Evanston, IL: Northwestern University.
- Biodegradable Materials Module Teacher's Edition*
Biosensors Module Teacher's Edition
Ceramics Module Teacher's Edition
Composites Module Teacher's Edition
Concrete: An Infrastructure Material Module Teacher's Edition
Food Packaging Module Teacher's Edition
Nanotechnology Module Teacher's Edition
Polymers Module Teacher's Edition
Smart Sensors Module Teacher's Edition
Sports Materials Module Teacher's Edition
- Committee on Enhancing Professional Development for Teachers, National Academies Teacher Advisory Council (2007). *Enhancing professional development for teachers:*

Potential uses of information technology, report of a workshop. Washington, DC: National Academies Press.

Creswell, J.W. (2007) *Qualitative inquiry and research design. Choosing among five approaches.* 2nd Edition Sage Publications.

Custer, R. L. (2008). *Professional development for engineering and technology education: A national symposium. Proceedings and future agenda.* Normal, IL: Illinois State University.

Dede, C. (Ed.) (2006). *Online professional development for teachers: Emerging models and methods.* Cambridge, MA: Harvard University Press.

De Miranda, M. A., Doggett, A. M., & Evans, J. T. (2005). *Medical technology: Contexts and content in science and technology.* Columbus, OH: Technology Education Program, College of Education & Human Ecology, The Ohio State University.

Denzin, N. K., & Lincoln, Y. (2005) *The Sage handbook of qualitative research.* Thousand Oaks, CA: Sage.

Department of Materials Science and Engineering, University of Illinois at Urbana-Champaign (1996). *Materials science and technology: Polymers, ceramics, metals, semiconductors, composites, concrete, energy.* Urbana, IL: Author.

Dym, C. L. (1994). *Engineering design: A synthesis of views.* New York: Cambridge University Press.

Dym, C. L., & Little, P. (2000). *Engineering design: A project-based introduction.* New York: Wiley

Ford Partnership for Advance Studies. (2004) *Module 10 Reverse engineering.* Dearborn, MI: Ford Motor Company.

Ford Partnership for Advance Studies. (2004) *Module 11 Different by design.* Dearborn, MI: Ford Motor Company.

Fowler, Floyd J. (1995) *Improving survey questions: Design and evaluation (Applied Social Research Methods).* Sage Publications

Gall, J. P. Gall, M.D., & Borg, W. R. (2005) *Applying educational research. A practical guide.* (5th ed.). Pearson.

Gay, L.R., Mills, Geoffrey E., & Airasian, P (2009) *Educational research competencies for analysis and applications.* (9th ed.). Pearson.

Gomez, A.G., Oakes, W.C., & Leone L.L. (2006) *Engineering your future. A project*

based introductions to engineering. (2nd ed.) Great Lakes Press, Inc.

Gomez, A.G., Oakes, W.C., & Leone L.L. (2007) *Survey of engineering. An introduction to engineering & technology for middle school and lower high school grades.* Great Lakes Press, Inc.

Hall, G. E., & Hord, S. M. (2001). *Implementing change: Patterns, principles, and potholes.* Boston: Allyn & Bacon.

Herschbach, D.R., (2009) *Technology education: Foundations and perspectives.* American Technical Publishers.

Hickman, M., Smith, K. & Weaver K. (2008) *Rowdy racers: Elementary technology education special project. Grade Three.* Great Lakes Press, Inc.

International Technology Education Association (2003). *Advancing excellence in technological literacy: Student assessment, professional development, and program standards.* Reston, VA: Author.

International Technology Education Association (2005). *Planning learning: Developing technology curriculum.* Reston, VA: Author.

International Technology Education Association. (2007). *Standards for technological literacy: Content for the study of technology.* (3rd ed.). Reston, VA: Author.

International Technology Education Association. (2009). *Technological issues a standards-based high school model course guide.* Reston, VA: Author.

International Technology Education Association. (2009). *Foundations of technology a standards-based high school model course guide.* (2nd ed.). Reston, VA: Author.

International Technology Education Association. (2006). *Advanced technological applications. A standards-based high school model course guide. Medical technologies. Information/communication technologies .* (CD-ROM). Reston, VA: Author.

International Technology Education Association. (2006). *Advanced design applications. A standards-based high school model course guide. 36 week course. Manufacturing, construction, energy and power and transportation.* (CD-ROM). Reston, VA: Author.

International Technology Education Association (2008) *Engineering design. A standards-based high school course guide.* (2nd ed.). (CD-ROM). Reston, VA: Author.

- Kalantzis, M., & Cope, B. (2008). *New learning: Elements of a science of education*. Cambridge, U. K.: Cambridge University Press.
- Keeley, P. (2005). *Science curriculum topic study*. Thousand Oaks, CA: Corwin Press.
- Lewis, T., & Sambaraju, S. (2006). *Biotechnology*. Columbus, OH: Technology Education Program, College of Education & Human Ecology, The Ohio State University.
- Lewis, T., & Zuga, K. F. (2005). *A conceptual framework of ideas and issues in technology education*. Columbus, OH: Technology Education Program, College of Education & Human Ecology, The Ohio State University.
- Lima, Marybeth, Oakes, William. (2006) *Service-learning. Engineering your community*. Great Lakes Press.
- Loucks-Horsley, S., Love, N., Stiles, K. E., & Hewson, P., (2003). *Designing professional development for teachers of science and mathematics*. (2nd ed.). Thousand Oaks, CA: Corwin.
- McTighe, J., Wiggins, G. (2005). *Understanding by design*.(2nd ed.). Alexandria, VA: Association for Supervision and Curriculum Development.
- McTighe, J., Wiggins, G. (2005). *Understanding by design. Professional development workbook*. Alexandria, VA: Association for Supervision and Curriculum Development.
- Middleton, H. (2008). *Researching technology education. Methods and techniques*. The Netherlands. Sense Publishers
- National Academy of Engineering. (2004). *The engineer of 2020*. Washington, DC: National Academies Press.
- National Academy of Engineering. (2005). *Educating the engineer of 2020: Adapting engineering education to the new century*. Washington, DC: National Academies Press.
- National Center for Technological Literacy, Museum of Science, Boston. (2008). *Engineering the future: Science, technology, and the design process*. Emeryville, CA: Key Curriculum Press.
- National Center for Technological Literacy, Museum of Science, Boston. (2008). *Engineering the future: Science, technology, and the design process teacher guides*. Emeryville, CA: Key Curriculum Press.

- National Center for Technological Literacy, Museum of Science, Boston. (2008). *Engineering the future: Science, technology, and the design process teacher guides. Engineer's notebook: Design a building of the future.* Emeryville, CA: Key Curriculum Press.
- National Center for Technological Literacy, Museum of Science, Boston. (2008). *Engineering the future: Science, technology, and the design process teacher guides. Engineer's notebook: Designing the best organizer in the world.* Emeryville, CA: Key Curriculum Press.
- National Center for Technological Literacy, Museum of Science, Boston. (2008). *Engineering the future: Science, technology, and the design process teacher guides. Engineer's notebook: Improve a patented boat design.* Emeryville, CA: Key Curriculum Press.
- National Center for Technological Literacy, Museum of Science, Boston. (2008). *Engineering the future: Science, technology, and the design process teacher guides. Engineer's notebook: Electricity and communications systems.* Emeryville, CA: Key Curriculum Press.
- National Council of Teachers of Mathematics. (2000) *Principles and standards for school mathematics.* Arlington, VA: Author.
- National Research Council. (1996). *National science education standards.* Washington, DC: National Academies Press.
- National Research Council. (2006). *Tech tally: Approaches for assessing technological literacy.* Washington, DC: National Academies Press.
- Orsak, G. C., Wood, S. L., Douglas, S. C., Munson, D. C., Jr., Treichler, J. R., Athale, R., & Yoder, M. A. (2004). *Engineering our digital future.* Upper Saddle River, NJ: Pearson Prentice Hall.
- Patton, Michael, (2002). *Qualitative research and evaluation methods.* (3rd edition) Sage Publications.
- Paul, R.; Niewoehner, R., Elder L. (2007) *The thinkers guide to engineering reasoning: Based on critical thinking concepts and tools. The foundation for critical thinking.*
- Pearson, G., & Young, A. T. (Eds.) (2002). *Technically speaking: Why all Americans need to know more about technology.* Washington, DC: National Academies Press.

- Pellegrino, J. W., Chudowsky, N., & Glaser, R. (Eds.). (2001). *Knowing what students know: The science and design of educational assessment*. Washington, DC: National Academies Press.
- Petroski, H. (1992). *To engineer is human: The role of failure in successful design*. New York: Vintage.
- Petroski, H. (1994). *Design paradigms: Case histories of error and judgment in engineering*. New York: Cambridge University Press.
- Petroski, H. (2003). *Small things considered: Why there is no perfect design*. New York: Knopf.
- Petroski, H. *The evolution of useful things: How everyday artifacts-from forks and pins to paper clips and zippers-came to be as they are*. New York: Vintage Books.
- Petroski, H. *Pushing the limits: New adventures in engineering*. New York: Vintage.
- Petroski, H. *Success through failure*. Princeton, NJ: Princeton University Press.
- Pierce A. J. & Karwatka, D. (2005). *Introduction to technology*. Glencoe McGraw Hill.
- Pool, R. (1997). *Beyond engineering: How society shapes technology*. New York: Oxford University Press.
- Project 2061, American Association for the Advancement of Science. (1993). *Benchmarks for science literacy*. New York: Oxford University Press.
- Project 2061, American Association for the Advancement of Science. (1990). *Science for all Americans*. New York: Oxford University Press.
- Shavelson, R.J., & Towne, L (Eds.). (2002). *Scientific research in education*. Washington, DC: National Research Council.
- Wason, S.D. (2004). *Grant writing handbook*. Hoboken, NJ: Wiley.
- Wiebe, E., Clark, A., Ferzli, M., Petlick, J. Mcbroom, R. (2005) *VISTE Instructor Units 1-4*. (CD-ROM). Albany, NY: Thompson Delmar Learning.
- Yin, R.K. (2003). *Case study research: design and methods*. 3rd Edition. Sage Publications.
